Yes

Life assurance policies taken out on one person's life may be held in a trust for the benefit of others.

Parents may often take out a life assurance policy but put it in trust for their children. Business partners or the directors of a company may also take out insurance on their lives but for the benefit of their partners or co-directors.

If the deceased died whilst they were still working, or before their parent(s), there is a possibility that the deceased may have a right to benefit under a policy held in trust.

If the deceased had the right to benefit under a life assurance policy held in trust, you will need to fill in the form IHT418, 'Assets held in trust'. See IHT400, 'Notes'.
