## PROBATE SPECIALISTS OF THE YEAR

Berkeley Weston Ltd DIY Probate

Berkeley Weston<sup>Ltd</sup>  
Legal Services

Founded in 2004, Berkeley Weston is dedicated to supporting bereaved families through complex legal processes with clarity and care. The Leicester-based firm serves clients across England and Wales, combining national reach with a personal approach. Unlike traditional high-street solicitors, probate and inheritance tax reporting are its sole focus, allowing the team to develop deep expertise and deliver accurate, efficient outcomes. Its flexible, tiered service model enables clients to choose the level of support they need, from guided self-service options to fully managed cases, all underpinned by transparent fixed fees that remove uncertainty at a difficult time for families.

The judges admired Berkeley Weston's clear commitment to accessibility and fairness within a traditionally complex and costly area of law. The firm's specialist focus, coupled with its transparent pricing structure, demonstrates a strong understanding of client needs during emotionally challenging circumstances. The judges also admired its ability to balance technical precision with genuine empathy as well as its innovative service model designed to give clients both control and reassurance. By consistently delivering dependable guidance while challenging conventional cost barriers, Berkeley Weston has established itself as a trusted and forward-thinking presence in the probate sector today.

“

*Berkeley Weston provides clear, compassionate probate expertise with transparent pricing and flexible client support.*

”
